

Home Pet Nutrition Booster  
High Calorie Dog Food  
(Unknown origins for this recipe so we can't give credit to the chef!)  
It works well and dogs LOVE it!

½ C cooked turkey or chicken

¼ C whole milk

¼ C white or brown rice

400 mg calcium

1 One-A-Day Multivitamin

1 TBSP flax oil

Mix this well in blender or food processor. Feed ½ to 1 cup per day to small pets, and increase proportionally. In some cases you will have to syringe feed – give frequent, small amounts.
